

# Environmentally Friendly

## Let Nature Clean Your *Entire* Grease Trap!!!

### **eco-tabs™ benefits:**

- Environmentally Safe
- Non-hazardous
- Biodegradable
- Mitigates Odor Problems
- Easy Application
- No need for Pumps or Dispensers
- Cleans Entire Trap
- Prevents Component and Pipe Corrosion
- Reduces "FOG"
- Eases Cleaning
- Reduces BOD's
- Affordable & Cost Efficient

### **Applications:**

- Restaurant
- Food Service
- Food Processing Plants
- All Grease Traps

### **Packaging:**

Each **eco-tabs™** is 3" by 1 3/4" and weighs 6 oz. (-170 Grams). Packaged approximately 50 tablets per pail, (18.75lbs.) or approximately 100 tablets per pail, (37.5lbs.).

For specific applications contact your **eco-tabs™** representative.

### **Directions for Use:**

Simply drop specified amount of **eco-tabs™** into the basin or tank for efficient treatment. Dosage may vary due to tank size, flow rates, and temperature.

**DO NOT FREEZE!** Store in cool dry location. Avoid excessive skin contact. SEE M.S.D.S.

**eco-tabs™ "Grease Trap" SLOW RELEASE** is a patent pending solid, slow release tablet that provides oxygen, nutrients, buffers and aerobic micro-organisms to keep your grease trap system clean and running efficiently!

## eco-tab™ Grease Trap Tablets

**eco-tabs™** are a patent pending, multifunctional Bioremediation system engineered to **Oxygenate Waste Water, Remove Noxious Odors, Prevent Corrosion in Pipes & Equipment, and Initiates Aerobic Biological Breakdown of Organic SLUDGE including Natural Oils, Fats & Grease.**

**eco-tabs™** are an affordable cost efficient solution proven to reduce Fats, Oils & Greases, Mitigate Odors while easing the cleaning of your grease traps. **eco-tabs™** has developed this technology to address the challenges of grease traps operating under a variety of conditions in Restaurants, Food Service and Food Processing Plant applications.

- **Go Green:** **eco-tabs™** are biodegradable, food grade and non-hazardous making them a completely environmentally friendly way to dispose of grease. Grease needs to be removed and disposed of, but using **eco-tabs™** eliminates the impact on landfills from disposal.
- **Save:** **eco-tabs™** substantially reduces frequency of costly pump outs of grease traps with monthly dosing by initiating bacterial degradation and aerobic digestion of **FOG**, outperforming any existing competitive product.
- **Improve Efficiency:** **eco-tabs™** helps grease traps work more efficiently, remain cleaner and increase flow to reduce associated problems related to **FOG**. Active oxygen effectively boosts the growth of grease digesting bacteria throughout the entire grease trap system.
- **Mitigate Odors:** **eco-tabs™** helps reduce and neutralize noxious odors originating in grease traps.
