Bill Mahon
McVac Eco Tabs
481 Grand Avenue
New Haven, CT 06513

Dear Bill,

The casino had been experiencing issues with odors from our largest grease trap for years which has periodically created an unpleasant environment for our customers and staff.

Since we've been treating our grease traps with Eco – Tabs, the results have been amazing. We have received no complaints of odors, the grease cap has been drastically reduced, and the frequency of pumping has been reduced as well.

After disappointing results from many other products, we have been pleasantly surprised to have a product that finally works.

Sincerely,

Dan Webster
